## WORK EXPERIENCES

### Dell Inc.

UX/UI Graduate Intern

January 2018 - Present

Played a key role in understanding and driving the key experiences that help create technologies that drive human progress by collaborating with our users, partners, and customers to create new opportunities that solve the problems that we don't yet recognize.

### The University of Texas at Austin

UX Design Teaching Assistant

August 2016 - January 2018

Created original educational video content for students. Purchased \$25,000 worth of film equipment- Luminix GH5s, Fotodiox lights, Savage Greenscreen etc.- to build an in-house media studio. Provided academic support for undergraduate students studying UX design.

Human Factors Research Assistant

January 2017 - January 2018

Designed surveys, conducted user interviews, and administered user tests to study a tool for Microsoft that enhances individuals abilities to "skim" and "scan" documents. Analyzed and evaluated quantitative and qualitative data gathered during research and testing.

Content Developer

January 2017 - January 2018

Responsible for designing, developing, and coding content on the University of Texas' iSchool websites. Created and collected data on original promotional, instructional, and informational videos. Used Hootsuite to manage all departmental social media accounts.

### The Media Awareness Project

Video Producer, Austin, TX

2015-2016

Independently created weekly video content to promote Austin non-profits. Coordinated all aspects of shoot- storyboard, scheduling, filming, editing, and publishing- in order to create client's story. All graphics and edits were done in Adobe After Effects and Premiere.

### Brownfield ISD

AP English Teacher, Brownfield, TX

2014-2015

Teach higher level content than grade standard in an interactive learning environment to deliver exceptional results for all students. Facilitated mentoring and after school tutoring for student. Responds to the learning needs/styles of all students by creating original content.

## PROJECTS

### iSchool Website Redesign

Brand UX Team

August 2017 - Present

Developed the official brand identity styleguide for the University of Texas at Austin School of Information. Created brand that reflects the vision, personal message, and voice/tone of the iSchool through bold visual designs and use online media.

### Dell Medical School

User Experience Designer

June 2017 - Present

Prototyped UI for a patent aimed to allow patients to self-diagnose pain. Took a UX approach to rapidly test and iterate designs using wireframes, user journeys, and mockups.
